

**Dave Quest,  
MLA  
Supporting  
Doug Horner  
For Premier**

Dave Quest has issued the following statement, "As you know the countdown to the Party Leadership vote is on and the time has come for me to make a decision on which Candidate I'll be supporting to be our next Premier.

I've spoken with hundreds of supporters and Constituents about their views and (of course!) there's no real consensus on any one person. I have heard, fairly consistently, good comments about Gary Mar and Doug Horner with a few quite impressed with Doug Griffiths - Not a lot of feedback on the others.

I like what I see in Gary Mar, with his depth of experience in the Legislature as well as his great work in Washington over the last few years. He's a bright, articulate man and I think he would make a great Premier.

Doug Horner has been in the Leg for about 10 years. He was Minister of Agriculture during the BSC Crisis and did a tremendous job for our Province in the portfolio. He was appointed Minister for Advance Education and Technology in 2008 and has done great work moving ahead with Campus Alberta as well as increasing commercialization of research done in this Province. He has also served as Deputy Premier. All great experience inside the Leg. But it's his depth of experience before he entered politics which truly impresses me. His 20 year career in the private sector includes several years in banking and finance. He has extensive experience in the agri-business in marketing specialty grains internationally and in operating his families barley and oat processing business. He has done business in 17 different countries around the world.

This has been a very difficult decision but it needed to be made.

I will be supporting Doug Horner with his campaign to become leader of our Party. In my opinion, his vision, his leadership qualities, and his depth of experience inside government and in the private sector makes him the best choice for Premier.

I know that some of you are already committed to other Candidates and I fully respect that of course. If some you have also decided to support Doug Horner, I look forward to working with you on his campaign. If you're looking for ways to get involved please give me a call and we'll take on this challenge together.

But after the vote, it's critical to the future of our Party that we all unite behind whoever is chosen as our new leader.

Thank-you to all of you for all of your work locally and good luck to all as we continue on with this Leadership race."
