

# Loraas truck hits power pole

THE STAR PHOENIX DECEMBER 26, 2013 4:00 PM

About 30 customers in Holiday Park were without power Thursday when a Loraas truck disposal hit a power pole around 1:20 p.m.

The collision split the pole, in an alley between the 1100 blocks of Avenues J and K, and it had to be replaced, Saskatoon Light and Power operations manager Don McPhee said.

Most customers' power had been restored by mid-afternoon. As of 3:20 p.m. five customers were still dark, with repairs to be finished later in the afternoon.

Thursday's incident was the only one over the Christmas holidays, McPhee said.

"We've been pretty lucky so far. No ice storms, that helps."
